

JUSTIN N. MURDOCK

Center for the Management, Utilization,
and Protection of Water Resources
Tennessee Technological University
Cookeville, TN 38505

(931) 372-3609

jnmurdock@tntech.edu

PROFESSIONAL EXPERIENCE:

- | | |
|--|---|
| Director, Center for the Management, Utilization, and Protection of Water Resources
Tennessee Technological University, Cookeville, TN | September 2024 - present |
| Professor, Department of Biology
Tennessee Technological University, Cookeville, TN | August 2022 - present |
| Interim Director, Center for the Management, Utilization, and Protection of Water Resources
Tennessee Technological University, Cookeville, TN | Sept 2022 – October 2023
May 2018 - October 2019 |
| Associate Professor, Department of Biology
Tennessee Technological University, Cookeville, TN | August 2017 - July 2022 |
| Assistant Professor, Department of Biology
Tennessee Technological University, Cookeville, TN | August 2012 - July 2017 |
| Postdoctoral Research Associate, USDA-Agricultural Research Service
National Sedimentation Laboratory, Oxford, MS | March 2009 - July 2012 |

EDUCATION:

- Kansas State University, PhD Biology, Manhattan, KS; 2008**
Dissertation: *Regulators of Stream Ecosystem Recovery from Disturbance*
Advisor: Walter Dodds
- Texas A&M University, MS Wildlife and Fisheries Science, College Station, TX; 2002**
Thesis: *Early Periphyton Accumulation and Composition in a Wastewater Effluent Dominated Stream: Effects of Season, Distance from Discharge, and Flow Regime*
Advisor: Daniel Roelke
- University of Kansas, BS Environmental Studies, Lawrence, KS 1998**

RESEARCH INTERESTS:

- Aquatic community ecology
- Biogeochemical cycles in aquatic systems
- Algal ecology and physiology
- Wetland ecology
- Invasive species

COURSES TAUGHT:

Tennessee Tech University:

Undergraduate: Limnology, Phycology, General Biology

Graduate: Stream Ecology, Advanced Microscopy, Aquatic Biogeochemistry

MENTORING:

Postdoctoral Research Associates:

Dr. Jingjing Li – current

Graduate Student Primary Advisor at Tennessee Tech University:

Kate Henderson (MS) – Graduated 2015

Lucas Hix (MS) – Graduated 2015

Natalie Knorp (PhD) – Graduated 2017

Andrea Engle (MS) – Graduated 2017

Jason Payne (MS) – Graduated 2018

Jordan Evans (MS) – Graduated 2018

Spencer Womble (MS) – Graduated 2019

Sam Day (MS) – Graduated 2019

Aden Blackburn (MS) – Graduated 2020

Morgan Michael (MS) – Graduated 2021

Spencer Womble (PhD) - Graduated 2023

Robert Brown (PhD) – Graduated 2023

Shrijana Duwadi (PhD) – Graduated 2023

Trevor Crawford (MS) – Graduated 2023

Peter Blum (PhD) - current

Dalton Tryba (MS) – current

Zoe Porter (PhD) - current

Seth Haston (MS) - current

Graduate Student Supervisory Committee:

Alexandra Ashmead (MS) University of Mississippi - Graduated 2011

Michael Keating (MS) University of Mississippi – Graduated 2014

Justin Spaulding (MS) Tennessee Tech University – Graduated 2014

Traci Hudson (PhD) Arkansas State University – Graduated 2016

Juju Wellemeier (MS) Tennessee Tech University – Graduated 2016

Isabel Papraniku (MS) Tennessee Tech University – Graduated 2017

Kayla Key (PhD) Tennessee Tech University – Graduated 2019

Grace McClelland (PhD) Tennessee Tech University – Graduated 2019

William Wood (MS) Tennessee Tech University – Graduated 2019

Mackenzie White (MS) Tennessee Tech University – Graduated 2021

Vinay Dhanvada (MS) Tennessee Tech University – Graduated 2021

Nusrat Jannah Snigdha (MS) Tennessee Tech University – Graduated 2021

Ashley Padgett (MS) Tennessee Tech University – Graduated 2022

Abbey Holsopple (MS) Tennessee Tech University – Graduated 2021

Makenzie Martin (MS) Tennessee Tech University – Graduated 2021
Brittney Bajo (MS) Tennessee Tech University – Graduated 2021
Ryan Hudson (MS) Tennessee Tech University – Graduated 2022
Samantha Allen (PhD) Tennessee Tech University – Graduated 2022
Collins Owassu (PhD) Tennessee Tech University – Graduated 2023
Kendall Hamm (MS) Tennessee Tech University – Graduated 2023
Jack Fetters (MS) Tennessee Tech University – Graduated 2023
Tyler Befus (MS) Murray State University – Graduated 2023
Andrew Gable (MS) Tennessee Tech University – current
Bruce Cunningham (MS) Tennessee Tech University – current
Caroline Hitchcock (MS) Tennessee Tech University – current
Cindy Scruggs (MS) Tennessee Tech University – current
Sahar Salimi (PhD) Tennessee Tech University – current

Undergraduate Students Mentored:

Kansas State University

Alyssa Riley, Tyler Kholer; 2007, Jennifer Nemec; 2008

University of Mississippi

Daniel Warren, Ruvini Omattage; 2011-2012

Tennessee Tech University

Clayton Morgan 2014, Andrew Eager 2014-2015, Scott Hamby 2015, Kelly Dunham 2015-2016
Ashlee Nichols 2017-2019, Daniel Prieu 2017, Daniel Holt 2017, Kendall Powell 2018, Jesse
Flowers 2018, Melody Culver 2019, Trevor Crawford – 2018-2019, Savannah Gambrell - 2019
Rosi Laycock 2018-2019, Will Schibig 2019, Maria Mattingly 2019, Ryan Bauer 2019, Alexa
Janesh 2020-2021, Andrew Johnson 2020, Kirk Windrow 2020, Kathryn Wilkins 2021, Billy
Crumpton 2021, Isaac Nickles 2021, Gabi Burke 2021, Sydney Beltran 2021, Ashley Daniels 2021,
Andrew Rosson 2020-2022, Kelly Day 2020-2022, Amanda Laboy 2022, Gabi De Almeida 2022-
23, Drew Bucher 2022, Shawn Childress 2022, Elliot Payne 2022, Liz McCurry 2022-23, Victoria
Weldon 2023, Nick Brewer, 2023-24, Lillian Caldwell 2024, Abby Clagg 2024, Katherine
Wieczorek 2024, Harley Haynes 2024.

Full-Time Research Technicians Supervised:

Jordan Evans 2018-2020, Trevor Crawford 2019-2021, Mohera Narimetla 2021-2022, Rachel Reed
2022, Tatyanna Mann 2022, Stephanie Driscoll 2020-2022, Victoria Angros 2024

GRANTS:

Total \$4,616,731

At TTU \$4,484,316 (\$3,950,401 as PI, \$533,915 as coPI)

\$47,835 internal TTU funding

- US Army Corps of Engineers Engineering Research and Development Center. Prediction and Early Identification of Harmful Algal Bloom (HABS) in Riverine Systems 2024. TTU PI Justin Murdock. \$244,410.

- Tennessee Department of Environment and Conservation. Development of a Rapid and Cost-efficient Procedure for Monitoring Toxic Cyanobacteria in Tennessee Surface Waters. 2024. PI Justin Murdock. \$406,253.
- Tennessee Department of Environment and Conservation. Microplastics from Tennessee's Wastewater Treatment Plants into Receiving Streams: An Infrastructural and Operational Perspective. 2024. PI Tania Datta, co-PI Justin Murdock. \$328,440.
- US Army Corps of Engineers. Environmental Contaminants Exposure from Streams to Terrestrial Food Webs and T&E Bat Vulnerability at Arnold Air Base, Tennessee. 2024. PI Justin Murdock. \$225,604.
- Tennessee Valley Authority. Detecting locations and potential causes of low oxygen zones in the Calfkiller River, Tennessee. 2023. PI Justin Murdock. \$144,121
- US Department of Agriculture Conservation Easement Assessment Program. Identifying tradeoffs in ecosystem services in restored agricultural wetlands in the Agricultural Conservation Easements Program-Wetland Reserve Easements (ACEP-WRE) program. 2023. PI Justin Murdock. \$299,961.
- US Army Corps of Engineers. Potential Bioaccumulated Contaminants in T&E Bat Food Sources. 2023. PI Justin Murdock. \$226,797.
- Tennessee Water Resources Research Center. Quantifying Microplastics from Tennessee's Wastewater Treatment Plants. 2022. PI Tania Datta, Co-PI Justin Murdock. \$26,175.
- US Army Corps of Engineers Engineering Research and Development Center. Determining Environmental Triggers of Harmful Algal Blooms and Toxin Production for the Purposes of HAB Prediction, Detection, and Management (HAB PDM). 2022. TTU PI Justin Murdock. \$425,000.
- TTU Faculty Committee Research Grant. Tracking how stream polychlorinated biphenyl (PCB) pollution moves across the aquatic/terrestrial boundary to accumulate in terrestrial consumers. 2022. PI: Justin Murdock, co-PIs Tania Datta, Josh Hall. \$20,000.
- US Army Corps of Engineers Engineering Research and Development Center Workshop Grant. Workshop with Marshal University, Mississippi State University, and Tennessee Tech University. Identifying Management Needs to Predict, Detect and Manage Harmful Algal Blooms in Flowing Waters Results of Riverine HABs Workshop November 16-17, 2021 Huntington, West Virginia. TTU PI Justin Murdock. \$10,000.
- TTU Faculty Committee Research Grant. Quantifying Microplastics from Tennessee's Wastewater Treatment Plants into Receiving Streams. 2021. coPIs: Tania Datta and Justin Murdock. \$10,000.
- Tennessee Water Resources Research Center. Assessing Water Quality of Rivers Feeding Riparian Wetlands in Agroecosystems: Research Supporting the Evaluation of the USDA Wetlands Reserve Program. 2020. PI Justin Murdock, Co-PI Robert Brown. \$4,995.
- The Nature Conservancy and US Department of Agriculture. Assessment of WRP easements in the Lower Mississippi River Basin. 2018. PI Justin Murdock, Co-PI Alfred Kalyanapu. \$1,957,728.
- US Air Force. Evaluation of Aquatic Resources to Support Bat Foraging Habitat at Arnold Engineering Development Center, Arnold Air Force Base, with an Emphasis on Rare, Threatened and Endangered Aquatic Species. 2018. PI Hayden Mattingly, coPIs Justin Murdock, Kit Wheeler, Keith Gibbs. \$129,690
- Duke Energy. Assessing the distribution of Didymo in North Carolina streams. 2017. PI: Justin Murdock. \$31,508.
- US Department of Agriculture Agricultural Research Service. Nutrient Cycling in Aquatic Agroecosystems. 2017 PI: Justin Murdock. \$50,000.
- US National Park Service. Assessment of Benthic Macroinvertebrate Response to Antimycin During Brook Trout Restoration. 2017. co-PIs Keith Gibbs and Justin Murdock. \$5,000.
- US Fish and Wildlife Service. Effects of Asian Carp Invasion on the Food Web of a Mussel Biodiversity Hotspot in Tennessee. 2016. PI Mark Rogers, Co-PIs Justin Murdock, Phil Betolli, and Don Hubbs. \$24,610.

- US Fish and Wildlife Service. Monitoring for *Didymosphenia geminata*: An Environmental DNA Approach. 2015. co-PIs Justin Murdock and Greg Moyer. \$24,978.
- TTU Faculty Committee Research Grant. Development of a rapid spectroscopic screening process for assessing algal response to environmental change. 2015. coPIs: Justin Murdock and Andrew Calendar. \$10,000.
- TTU Faculty Development Fund. 2015. PI: Justin Murdock. \$1,435.
- US Fish and Wildlife Service. Effects of *Didymosphenia geminata* invasion on riverine food webs in the upper Tennessee River basin. 2014. Co-PIs Justin Murdock and Natalie Knorp. \$19,578.
- Tennessee Wildlife Resources Agency. Determining stream susceptibility to colonization and proliferation of the alga *Didymosphenia geminata* (Didymo) in the Chilhowee Reservoir watershed. Tallassee Fund: 2013. PI: Justin Murdock; Co-PI Matt Kulp. \$17,500.
- Trout Unlimited. Determining *Didymosphenia geminata* (Didymo) distribution and colonization potential in Tennessee streams. 2013. PI: Justin Murdock; Co-PIs Matt Kulp, Stephen Moore. \$10,000.
- US Department of Agriculture Agricultural Research Service. Microbial Roles in Water Improvement. 2012. PI: Justin Murdock. \$49,737.
- TTU Faculty Committee Research Grant. Development of dual carbon and nitrogen isotope detection with FT-IR microspectroscopy. 2013 PI: Justin Murdock. \$5,000.
- TTU Faculty Development Fund. 2013 PI: Justin Murdock. \$1,400.
- National Science Foundation. MRI: Acquisition of an Imaging Flow Cytometer for Multidisciplinary Organic and Inorganic Particle Research and Education. 2010. PI: Clifford Ochs. \$102,415.
- Brookhaven National Laboratory. Beam time at the National Synchrotron Light Source. 2008. Co-PIs Justin Murdock and David Wetzel. \$27,000.
- City of College Station, Texas. Municipal wastewater effects on stream water quality. 2000. PI: Justin Murdock. \$3,000.

AWARDS:

- Tennessee Tech University Wings Up 100 Research Achievement Award. 2019, 2020, 2021, 2022, 2023, 2024.
- Outstanding Reviewer: Freshwater Science. 2018
- Kansas State University, Division of Biology. John C. Frazier Award for Excellence in Graduate Student Research. 2007.
- Runner up, best oral presentation for basic science. North American Benthological Society. Anchorage, Alaska. 2006.

PROFESSIONAL MEMBERSHIPS:

- Society of Wetland Scientists
- American Geophysical Union
- Society for Freshwater Science
- International Phycological Society

SERVICE AND OUTREACH:

Professional Service

- State of Tennessee Harmful Algal Bloom working group member
- State of Tennessee Stream Nutrient Reduction Taskforce member
- Editorial board for the journal Aquatic Sciences, Springer/Nature
- Journal reviewer for *Algae*, *Algal Research*, *Aquatic Ecology*, *Aquatic Sciences*, *Analytical Letters*, *Applied Spectroscopy*, *Biologia*, *Biogeosciences*, *Constana*, *European Journal of Phycology*, *Ecological Engineering*, *Ecological Modeling*, *Ecotoxicology*, *Ecotoxicology and Environmental Safety*, *Environmental Management*, *Environmental Science & Technology*, *Fisheries Management*, *Freshwater Biology*, *Freshwater Science*, *Frontiers in Plant Science*, *Fundamental and Applied Limnology*, *Hydrobiologia*, *Journal of Applied Phycology*, *Journal of Freshwater Ecology*, *Journal of Hazardous Materials*, *Journal of the North American Benthological Society*, *Limnetica*, *Limnology and Oceanography: Methods*, *Marine and Freshwater Research*, *Polish Journal of Environmental Studies*
- National Science Foundation ad-hoc reviewer
- EPA STAR Graduate Fellowship Program reviewer
- Textbook proposal review (Phycology 5th Edition, Robert Lee) for Cambridge University Press
- TTU representative to the US Army Corps of Engineers' Cordell Hull Reservoir 2019 Master Plan Revision
- Student presentation and poster judge at annual meetings of the Society for Freshwater Science. 2009-2020.

Community Service

- TDEC wetland evaluation steering committee 2024
- Invited to give testimony to the Tennessee State Legislature to provide scientific data regarding a wetlands bill HB 1054. March 2024.
- Tennessee Science Olympiad Judge 2020
- Putnam County Tornado Runoff Water Quality Monitoring 2020
- Career Day speaker, Northeast Elementary School and Avery Trace Middle School, Cookeville, TN. 2012-2019
- High School STEM Science Fair Judge 2019
- Speaker at Trout Unlimited; Little River Chapter, and Tennessee State Chapter meetings. 2015-2016
- Ecology seminar speaker for Boy Scouts of America Venturing program, Latimer High Adventure Reservation. 2015
- Participant in the USDA National Sedimentation Adopt-a-school program. 2009-2011.
- Speaker in Ripley Middle School "Career Class". ~200 middle school students each year in a rural Mississippi school system about possible careers in aquatic sciences. 2009-2010.
- Judge at Annual Science Fair. Della Davidson Elementary School. 5th and 6th grade students. 2009.

University Service

- Interim Director of the TTU Center for the Management Utilization and Protection of Water Resources 2018-2019, 2022-2023
- Research Leader for the Center for the Management, Utilization, and Protection of Water Resources' Biodiversity area. 2017-2022
- Adjunct Faculty in the School of Environmental and Sustainability Studies 2012-2022
- Advisory faculty for the School of Environmental and Sustainability Studies undergraduate and

- professional masters programs. 2014-2022.
- School of Environmental and Sustainability Studies Curriculum Committee 2018-2021
- College of Arts and Sciences representative on the University Research Advisory Committee. 2017-2018.
- Search Committee Member for Department of Agriculture faculty member 2020
- Chair: Environmental Studies Program Graduate Student Application Review Committee. 2016-2017
- Chair: Environmental Studies Program Curriculum Review Committee. 2016-2017
- Southern Appalachian Cooperative Ecosystem Studies Unit (CESU) university liaison. 2016-2022
- Coordinated the National Park Service Cooperative Ecosystem Studies Unit (CESU) Master Agreement resubmittal. 2018.
- Water Center Director Search Committee member 2019
- TTU Research Day poster judge 2012-2021

INVITED PRESENTATIONS (as presenter):

2024 Restoring diverse vegetation and hydrology can optimize nutrient retention recovery in agricultural floodplain wetlands in Tennessee and Kentucky. Soil and Water Conservation Society national meeting. Myrtle Beach, SC.

A Science-based Look at Tennessee Wetlands and Their Benefits to Society. Tennessee Wetlands Summit. Tennessee Department of Environment and Conservation. Nashville, TN.

2023 Methods for assessing nutrient retention in restored wetlands. H2Ohio Wetland Restoration Conference. Columbus, Ohio.

The biochemistry of algae. Tennessee Tech Student Chapter ACS Seminar.

Restoration design decisions can produce ecosystem service trade-offs in agricultural wetland restorations. Society of Wetland Scientists national meeting. Spokane, WA.

2022 Agricultural floodplain wetlands can have multiple functional recovery trajectories depending on restoration design. American Geophysical Union's National Conference, Chicago, IL.

Designing the future of Mississippi River riparian wetlands: How restoration planning can reduce downstream nutrients. Kent State University.

Nutrient retention recovery in restored floodplain wetlands. Southern Illinois University

Panel: Designing and Implementing Effective Long-Term Wetland Monitoring. Joint Aquatic Sciences Meeting, Grand Rapids, MI.

USDA NRCS Tennessee/Kentucky State Technical Meeting. Nutrient Retention and Soil Health. Virtual.

2021 *Didymosphenia geminata* in Tennessee and North Carolina. Great Lakes Panel on Aquatic Nuisance Species. Virtual.

2020 Didymo in the Tuckasegee River. Trout Unlimited Tuckasegee Chapter. Silva, NC.

2019 Assessing nutrient retention within Wetlands Reserve Program easements in Kentucky and Tennessee. Four Rivers Watershed Sustainability Summit. Murray State University.

Distribution of *Didymosphenia geminata* in the Southern Appalachian Mountains. American Fisheries Society Invasive Species Panel, East Coast Trout Management and Culture Workshop. Frostburg, Maryland.

Wetland Reserve program research in Tennessee. USDA NRCS Tennessee State Technical Committee. Murfreesboro, TN.

Improving Nutrient Retention in Agricultural Watersheds Through Floodplain Wetland Restoration. Southeastern Water Pollution Biologists Association annual meeting. Chattanooga, TN.

2017 The impact of *Didymosphenia geminata* mats varies across trophic levels in Southern Appalachian streams. Austin Peay State University.

The impact of *Didymosphenia geminata* mats varies across trophic levels in Southern Appalachian streams. Southern Appalachian Cooperative Ecosystem Studies Unit annual meeting.

2016 Highlighting the importance of algal biodiversity through cellular level nutrient measurements. Middle Tennessee State University.

Trout Unlimited. Tennessee Coldwater Meeting. Current distribution and potential spread of *Didymo* in Tennessee.

2015 Trout Unlimited. Little River Chapter, TN. Distribution and impact of *Didymo* in Southern Appalachian streams.

2010 Macro- and micro-scale regulators of stream recovery from disturbance. Invited presentation. University of Mississippi.

PRESENTATIONS (as presenter):

- 2024 Evaluating the success of wetland functional recovery can depend on when and where data are collected. West Tennessee Water Resources Symposium. Jackson, TN.
- Measuring the trajectory of ecosystem functional return in restored agricultural wetlands: When is a wetland restoration goal reached? Tennessee American Water Resources Association Meeting. Montgomery Bell State Park, TN.
- Evaluating the success of wetland functional recovery can depend on when and where data are collected. Society of Freshwater Science national meeting. Philadelphia, PA.
- 2023 Restoration design decisions can produce ecosystem service trade-offs in agricultural wetland restorations. Tennessee American Water Resources Association Meeting. Montgomery Bell State Park, TN.
- Agricultural wetland restoration design influences nutrient retention recovery. West Tennessee Water Resources Symposium. Jackson, TN.
- 2022 Nutrient Retention Recovery Across Space and Time in Restored Agricultural Wetlands. Joint Aquatic Sciences Meeting, Grand Rapids, MI.
- 2021 Marine and Freshwater HAB Monitoring Using the FlowCam. National Monitoring Conference. Virtual.
- Nutrient recovery trajectories of restored riparian wetlands in agricultural watersheds Society of Freshwater Science national meeting. Virtual.
- 2020 Evolution of FlowCam for Cyanobacteria HAB Research and Monitoring. North American Lake Management Society Conference – Virtual.
- Nutrient recovery trajectories of restored riparian wetlands in agricultural watersheds Society of Freshwater Science national meeting. Virtual.
- 2019 Assessing the Restoration Success of the Wetlands Reserve Program in Western Kentucky and Tennessee. West Tennessee Water Resources Symposium, Jackson, TN.
- Detecting water quality thresholds for algal blooms using a short-term, multi-species assay. Society for Freshwater Science national conference. Salt Lake City, UT.
- 2018 Surface water quantity management can improve water quality and nutrient retention in agricultural watersheds. West Tennessee Water Resources Symposium. Jackson, TN.
- Surface water quantity can regulate aquatic agroecosystem water quality and nutrient retention. Tennessee American Water Resources Association Meeting. Montgomery Bell State Park, TN.
- Surface water availability can regulate water quality and nutrient retention in aquatic agroecosystems. Society for Freshwater Science national meeting. Detroit, MI.

- 2017 Flow and large consumer alterations can have limited impacts on benthic colonization in productive agricultural streams. Society for Freshwater Science national meeting. Raleigh, NC.
- Dissolved oxygen dynamics in turbid, high-nutrient agricultural lakes. West Tennessee Water Resources Symposium, Jackson, TN.
- 2016 The effects *Didymosphenia geminata* varies across trophic levels in Southern Appalachian mountain streams. Society of Freshwater Science annual meeting. Sacramento, CA.
- 2015 Macroinvertebrate structural and consumption responses to *Didymosphenia geminata* mats in the upper Tennessee River watershed. Society of Freshwater Science annual meeting. Milwaukee, WI.
- 2014 Tennessee Academy of Sciences annual meeting. Nutrients, suspended sediment, and hydrology interact to regulate dissolved oxygen in agricultural lakes and streams.
- Algal regulation of dissolved oxygen dynamics in turbid, high nutrient agricultural lakes. Society of Freshwater Science annual meeting. Portland, OR.
- 2013 Relative importance of light and nutrients on algal productivity in turbid, high nutrient lakes. Society of Freshwater Science annual meeting. Jacksonville, FL.
- 2012 Measuring carbon uptake in individual algae within multi-species assemblages. Society of Freshwater Science annual meeting. Louisville, KY.
- 2011 International Conference on Advanced Vibrational Spectroscopy. Tracking carbon isotope incorporation into algal cells with synchrotron infrared microspectroscopy.
- North American Benthological Society Annual Conference. Spatial variation in microbial nutrient limitation in low gradient agricultural streams. Providence, RI.
- 2010 North American Benthological Society Annual Conference. Detecting species-specific algal responses to a nutrient and herbicide mixture in benthic assemblages with infrared microspectroscopy. Santa Fe, NM.
- 2009 Federation of Analytical Chemistry and Spectroscopy Societies. Analysis of algal physiological response to pollutants with synchrotron infrared microspectroscopy.
- 2008 North American Benthological Society Annual Conference. Detecting single cell algal nutritional content and nitrogen uptake in natural benthic assemblages. Salt Lake City, UT.
- Student Research Forum, Kansas State University. Detecting single cell algal nutritional content and nitrogen uptake in natural benthic assemblages.
- 2007 International Conference on Advanced Vibrational Spectroscopy. Subcellular chemical imaging of localized growth response to nutrients via FT-IR focal plane array. Poster.
- North American Benthological Society Annual Conference. Recovery of intermittent prairie streams from drought. Columbia, SC.

Federation of Analytical Chemistry and Spectroscopy Societies Spatially resolved FT-IR microspectroscopy of the nutritional status of stream algae.

Graduate Student Research Forum, Kansas State University. Recovery of prairie stream algae following drought.

- 2006 North American Benthological Society Annual Conference. Linking benthic algal biomass to substrata roughness and orientation: a quantitative approach. Anchorage, AK.

Konza LTER Workshop. Linking substrata roughness and orientation to benthic algal development.

Ecology and Evolutionary Biology Seminar, Kansas State University. Fishes and floods: Recovery of prairie stream ecosystems following floods.

- 2005 North American Benthological Society Annual Conference. Physical factors influencing periphyton accumulation in a prairie stream. Poster. New Orleans, LA.

Graduate Student Research Forum, Kansas State University. Effects of substratum orientation and surface texture on estimates of periphyton biomass.

- 2002 Texas Academy of Science Annual Conference. Impacts of municipal wastewater effluent and watershed development on sub-tropical, low-order urban streams. Poster.

American Society of Limnology and Oceanography Annual Conference. Multiple wastewater effluent discharges: stream algal productivity and composition. Poster.

Department of Wildlife and Fisheries Research Symposium, Texas A&M University. Impact of wastewater effluent and watershed development on stream hydrology, water quality, and primary production.

- 2001 Brazos Greenways Council, College Station, Texas. Invited presentation. The current health of Carter Creek and possible impacts of future watershed development. Invited presentation.
